- / Set and track global quality targets and KPIs for electronics, software, and drives development projects
- / Managing a global team located in Germany, Slovakia and China
- / Define, develop, and implement global quality standards, methods, and tools
- / Approve project milestones and software releases based on quality and technical requirements
- / Define global competence management for quality, including continuous process improvement, and represent department in corporate committees

### YOUR BENEFITS

- / Remuneration and general conditions in accordance with the IG Metall collective agreement (30 days holiday, additional payments)
- / Flexible working time models that adapt to your current life situation (e.g. mobile working, part-time, job sharing, sabbatical)
- / Promotion of professional and personal development at BSH's internal Global Learning Campus
- / Attractive company pension scheme financed by the employer
- / Wide range of employer benefits such as a job bike, discounted equipment in the For Us Shop, corporate

### YOUR PROFILE

- / Degree in Engineering, Physics, Computer Science, or similar, with additional QM qualifications (e.g., Six Sigma, QM Auditor)
- / 5 years of leadership experience in QM and / or Development, with project responsibility
- / Several years of professional experience in Software / Hardware development
- / Strong experience managing in an international context
- / Knowledge of relevant norms (e.g., ISO 9001, 25010) and strong assertiveness with excellent communication skills

I look forward to your application.

Nicole Ritter (HR Contact)
