

»Maybe tomorrow our products will be the hub of social living.«

Charlotte

Digital Transition

Tomorrow is our home.

See how easy it is to explore new ideas at BSH Home Appliances Group: As a leading manufacturer of home appliances, we improve people's quality of life by thinking in solutions. With our global brands Bosch, Siemens, Gaggenau and Neff as well as our local brands, we explore innovative technologies from voice recognition to artificial intelligence. As we utilize these to create new user experiences, we think, prototype, build – and keep on learning. Join us now and give your career a home.

Development Technician

BSH Electrodomésticos España, S.A. | Full time | Santander

YOUR RESPONSIBILITIES

Join our Development team in Santander and you will be working in an exciting, international environment and contributing personally to the company's success.

- / Designs and develops components and interfaces in 3D and 2D, ensuring accurate and functional product representations.
- / Integrates appliance components and systems using Systems Engineering and Model-Based Engineering methodologies.
- / Applies physics-based simulations to verify mechanical, thermal, and process performance across manufacturing, handling, and transportation.
- / Defines simulation scopes and supports model creation, validation, and correlation, including structural, thermal, CFD, and process models.
- / Contributes to continuous improvement and cost-saving initiatives, using structured problem-solving and root-cause analysis methods.

YOUR BENEFITS

- / Flexible working time schemes and possibility of home office (50%).
- / Discounts in BSH homeappliances and other benefits.
- / Free access to our online learning platform, including languages.

YOUR PROFILE

- / University degree in Engineering or similar. Fluent in English and Spanish. German will be advantage.
- / 2 years of experience in international projects.
- / Experience with Tolerance and Special Characteristics Management (Convolution Builder).
- / Experience with Mechanical Simulation Tools: ANSYS, LS-DYNA.
- / Experience with Component and System Integration (Siemens NX).
