Cooling Process Expert Engineer

BSH Home Appliances S.A. de C.V. | Full time | Replacement
Salinas Victoria

YOUR RESPONSIBILITIES

Cooling Process Engineer specialized in thermal system optimization, process reliability, and efficiency improvements in industrial manufacturing environments.

- / Design and manage the cooling systems essential for the operation of home appliances.
- / Oversee and improve the various brazing processes for all essential metal joints in cooling systems.
- / Design and manage machines to test the cooling systems, aiming to detect leaks and assess their current status.
- / Utilize Industry 4.0 tools to improve the production line and implement IT solutions to develop the previously mentioned tools.

YOUR BENEFITS

- / Competitive salary and superior benefits package above legal requirements.
- / Opportunity to work in a global company with international exposure and collaboration.
- / Continuous learning and professional development in advanced engineering processes.
- / Career growth opportunities within a global organization.

YOUR PROFILE

- / A bachelor's degree in mechanical engineering, electronic engineering, software engineering, or a related field is required
- / Design, manage, and understand specific cooling systems in home appliances, along with their manufacturing and assembly processes.
- / More than 5 years experience in similar positions
- / This position requires both onsite development and fieldwork.
- / Proficiency English
