Digital Transition

Tomorrow is our home.

See how easy it is to explore new ideas at BSH Home Appliances Group: As a leading manufacturer of home appliances, we improve people's quality of life by thinking in solutions. With our global brands Bosch, Siemens, Gaggenau and Neff as well as our local brands, we explore innovative technologies from voice recognition to artificial intelligence. As we utilize these to create new user experiences, we think, prototype, build – and keep on learning. Join us now and give your career a home.

Lead Software Engineer - Frontend (React / Next.js) (m/f/d)

BSH Electrodomésticos España, S.A. | Full time | Work Mode:
Zaragoza

YOUR RESPONSIBILITIES

As Lead Software Engineer within the Global Web & eCommerce team, you are an integral part of a scaled agile team in an exciting international environment that works to enhance, build, and deliver trusted market-leading technology products in a secure, stable, and scalable way.

- / Drives decisions that influence the product architecture, application functionality, and technical operations and processes
- / Collaborate with multiple development teams and coordinate processes and patterns of development
- / Guide and mentor the teams and collaborate with software engineers to facilitate problem solving for complex challenges
- / Ensure best practices are consistently applied: including code quality, testing, system design, performance optimization, etc.
- / Investigate technical optimizations, synergies, automation (ex: through AI), and technical depth / debt reduction potential

YOUR BENEFITS

- / Flexible working hours and work from home conditions
- / Funded meals and company transport
- / Yearly training plan designed for your particular professional growth
- / Discounts on BSH home appliances and other benefits

YOUR PROFILE

- / Bachelor/Master in computer science or related fields, or other significant credentials in experience and knowledge. Fluent in English is necessary
- / Familiar with modern web software development principles, practices and frameworks (specifically MACH / Microservices architecture)
- / Experience with technologies like: Next.js, NodeJS, TypeScript, CI/CD pipelines, GraphQL, Git, Web performance, REST APIs, OPEN APIs standards
- / Nice to have: Kubernetes, cloud services management, serverless, CMS Systems (ContentStack), Commerce systems (commercetools)
- / 5+ years of frontend development experience
