Quality Test Engineer

BSH Home Appliances S.A. de C.V. | Full time | Work Mode: On-site | Replacement

Salinas Victoria

YOUR RESPONSIBILITIES

Test Engineer specializing in quality management, measurement systems, laboratory testing, metrology, and quality improvement projects. Experienced in test equipment implementation, CMM programming, problem solving, supplier coordination, and leading technical teams to ensure product quality

- / Lead implementation, maintenance, and validation of measuring and test equipment, ensuring accuracy and reliability.
- / Develop test plans and perform CMM programming (PC-DMIS), 3D scanning, and precision measurements.
- / Conduct laboratory testing including mechanical, chemical, climatic, coating, cooling, and foam evaluations.
- / Manage metrology activities, supplier coordination, quality projects, and problem-solving initiatives.
- / Coordinate test technicians, training, task management, 5S activities, and external laboratory testing

YOUR BENEFITS

- / Global career development opportunities within a leading home appliance manufacturing company.
- / Opportunity to lead quality projects and develop advanced technical expertise.
- / Exposure to innovative testing technologies, metrology, and measurement systems.
- / Collaboration with international teams, suppliers, and technical experts.
- / Continuous learning through training, certifications, and professional development.

YOUR PROFILE

- / University degree in Engineering (Mechanical, Electrical, Chemical, or Materials).
- / Knowledge of measurement methods, metrology regulations, GD&T, and control equipment.
- / Experience with 3D modeling, PC-DMIS programming, and Geomagic Control X.
- / Knowledge of refrigerant cooling circuits and testing technologies.
- / English proficiency and technical documentation skills.
